WHAT you lose
thru baking failure
must be added to baking
costs—it has to be paid for.

Calumet Baking Powder
will save you all of that. Be-
cause when you use it—there are
no failures—no losses. Every bak-
ing is sweet and palatable—and
stays moist, tender and delicious to
the last tasty bite.

That's a big saving—but
that isn't all. You save when
you buy Calumet and you save
when you use it.

It is reasonable in cost and
possesses more than the or-
dinary leavening strength. You pay
less and use less. You get the most
in purity, dependability and whole-
some.

In every way—it is the best
way to keep down baking costs. That
is what has made it the world's big-
gest selling baking powder—has kept
it the favorite of millions of house-
wives for more than thirty years.

Good wholesome bakings can be
made only of good materials, no
other way, so use only good baking
powder and good plain flour (not
self-rising flour).

WOMEN IN DEMOCRATIC POLI- TICAL ORGANIZATION

Three thousand women will be-
come members of the Democratic
political organization in Kentucky
by the plan of the State Central
and Executive committees providing
that all precincts are to be repre-
sented by two committeemen instead of
one as heretofore, the new repre-
sentative on the county committee
to be a woman. Beginning the first
Saturday in May Democratic organi-
zations in the State will be doubled
in size at least until the party law
can be changed in 1924.

That women voters are to be given
full recognition in the conduct of
the affairs of the party in Kentucky
was assured by the State commit-
tees at their meeting in Louisville,
when provision was made for dou-
bling the size of the State governing
body by adding as many women as
present male members.

The Fourth Dimension.

The fourth dimension of space is
supposed to assume dimensions whose
relation to the recognized dimensions
of length, breadth and thickness is an-
alogous to that borne by any of these
to the other two. Four-dimensional
space may be regarded as a hypo-
thetical conception to explain equa-
tions of the fourth degree in analytical
geometry or as an entity beyond the
limitations of an ordinary existence.

Around the Clock.

"Yes, boys," continued the steeple
jack, who was telling "true" and
thrilling stories, "yes, I was working
a clock tower one afternoon about 12
minutes to six, when I slipped, slid
down the roof and caught on the
long hand of the clock. There I
dangled while the town folks collected
below. So I yelled to 'em, 'Say you
folks, go home to your suppers, it'll
be close to half an hour before I
drop.'"

imitation.

in the carton and the grocer will refund your money.

There is one dealer in your town selling MIOLO
